

To whom it may concern:

All Phase General Contractors, Inc. was our General Contractor on our project Radiant Wellness Center. We started the project in March 2020 and completed the project on time by 06/23/2020. The contract amount is \$107,541.99. This work consisted of an interior remodel.

The build out was completed in a timely manner (despite it being during the pandemic when everything was on back order) and it looks AMAZING. Every member of the All Phase team are perfectionists when it comes to attention to detail which was a huge positive. I felt confident in the work they did and didn't feel the need to check up on the space constantly to make sure work was being done correctly. The project manager did a great job in communicating with me on what was being done and why as well as how long each project would take. The GC that we worked with, Ryan, was very open and honest when it came to expectations with money and time it would take to complete everything. He also did everything in his power to make sure he contracted the best and least expensive people for the job as we were on a strict budget. We highly recommend All Phase and will be using them again in the future if the opportunity presents itself.

If any further information is needed, please feel free to contact me at the phone number or email below.

Thank you,
